### Products Quick Reference Guide

#### altoCIRRUS®

**Form:** Concentrate  
**Activity:** Knockdown, kill

- Designed for use through ULV and thermal fogging equipment  
- Dual synergized with PBO and MGK-264®

**Package Size / Configuration**  
1 gallon unit

#### BEDLAM®

**Form:** Aerosol  
**Activity:** Kills by contact, residual

- Kills bed bugs and their eggs  
- Foaming action for optimized surface contact  
- For surface spray application on mattresses, wood furniture and carpet  
- 2-week residual on wood, ceramic surfaces and carpet

**Package Size / Configuration**  
17 ounce unit  
6 x 17 ounce case

#### BEDLAM® PLUS

**Form:** Aerosol  
**Activity:** Kills by contact, residual

- Dual mode of action attacks two target sites  
- Kills pyrethroid-resistant bed bugs and their eggs  
- Foaming action for optimized surface contact  
- For use on mattresses, wood furniture and carpet  
- 16-week residual on ceramic (nonporous) surfaces

**Package Size / Configuration**  
17 ounce unit  
12 x 17 ounce case

#### CIRRUS®

**Form:** Concentrate  
**Activity:** Flushing, kills by contact

- Designed for use through ULV and thermal fogging equipment  
- Synthetic alternative to Pyronyl 3610  
- Dual synergized with PBO and MGK-264®

**Package Size / Configuration**  
1 gallon unit  
55 gallon

#### CROSSFIRE® AEROSOL

**Form:** Aerosol  
**Activity:** Kills by contact, residual

- Kills bed bugs and their eggs  
- Accepted for direct application on mattresses  
- Multi-mode action and control  
- Direct contact provides control in less than 5 minutes with direct spraying as shown by independent testing  
- No signal word

**Package Size / Configuration**  
17 ounce unit  
130 ounce unit

#### CROSSFIRE® CONCENTRATE

**Form:** Concentrate  
**Activity:** Kills by contact, residual

- Kills bed bugs and their eggs  
- Accepted for direct application on mattresses  
- Multi-mode action and control  
- Direct contact provides control in less than 5 minutes with direct spraying as shown by independent testing  
- No signal word

**Package Size / Configuration**  
13 ounce unit  
130 ounce unit

#### DARLEX®

**Form:** Concentrate  
**Activity:** Residual, kills on contact

- Controls both larvae and adult darkling beetles  
- For use in and along the outside perimeter of poultry houses  
- For broadcast and band applications

**Package Size / Configuration**  
1 gallon unit

#### EVERGREEN® 100

**Form:** Concentrate  
**Activity:** Flushing, knockdown, kills by contact

- Synergized pyrethrum fogging concentrate  
- Kills flies and mosquitoes  
- For use in livestock and poultry houses  
- For use outdoors

**Package Size / Configuration**  
1 gallon unit  
55 gallon unit

#### EVERGREEN® PYRETHRUM CONCENTRATE

**Form:** Concentrate  
**Activity:** Knockdown, kills by contact

- Contains pyrethrins, a botanical insecticide derived from chrysanthemums  
- For use in food handling, processing and storage areas  
- Kills more than 140 insects

**Package Size / Configuration**  
1 pint unit  
1 gallon unit

#### EVERGREEN® PYRETHRUM DUST

**Form:** Dust  
**Activity:** Kills by contact

- Contains pyrethrins, a botanical insecticide derived from chrysanthemums  
- Delivers fast kill for a broad range of target pests  
- Kills bed bugs, yellowjackets, hornets and paper wasps (see label for additional pests)

**Package Size / Configuration**  
10 ounce unit

**Insect Control Solutions**

- **HYPERION®**
  - Form: Concentrate
  - Activity: Kills by contact, residual
  - Kills mosquitoes and flies
  - 3-day residual control
  - Stable in solution
  - Will not harm most common ornamental plants
  - Effective against mosquitoes that may transmit Zika virus

- **NYGUARD® IGR**
  - Form: Concentrate
  - Activity: Insect growth regulator, residual
  - Indoor and outdoor use (photostable)
  - Controls small flies
  - 6-month residual for cockroaches, 7-month residual for fleas
  - Versatility of pests and use sites
  - Prevents Aedes mosquito larvae from becoming biting adults that may transmit Zika virus

- **NYGUARD® EZ1**
  - Form: Concentrate
  - Activity: Insect growth regulator, residual
  - Indoor and outdoor use (photostable)
  - May be used in food and non-food areas
  - Convenient 1 oz bottle for easy tank mixing
  - Prevents Aedes mosquito larvae from becoming biting adults that may transmit Zika virus

- **NYGUARD® PLUS**
  - Form: Aerosol
  - Activity: Kills by contact, residual
  - Quick acting, long lasting with 7-month residual for fleas
  - No-drip application
  - Eliminates pet odors, including urine, leaving fresh clean scent

- **ONEGUARD™**
  - Form: Concentrate
  - Activity: Flushing, knockdown, kills by contact
  - Designed for use through ULV and thermal fogging equipment
  - Dual-synergized fogging concentrate
  - Contains 1% pyrethrum

- **ONS Laught® FASTCAP**
  - Form: Concentrate
  - Activity: Quick kill, residual
  - Fast-acting microencapsulated formula
  - Combines fast kill and residual control
  - Kills spiders, scorpions, ants and fleas (see label for additional pests)
  - Flexible indoor broadcast and outdoor use
  - Effective against mosquitoes that may transmit Zika virus

- **PYROCIDE® 100**
  - Form: Concentrate
  - Activity: Flushing, knockdown, kills by contact
  - Designed for use through ULV and thermal fogging equipment
  - Dual-synergized fogging concentrate
  - Contains 1% pyrethrum

- **PYROCIDE® 300**
  - Form: Concentrate
  - Activity: Flushing, knockdown, kills by contact
  - Designed for use through ULV and thermal fogging equipment
  - Dual-synergized fogging concentrate
  - Contains 3% pyrethrum

- **SECTOR®**
  - Form: Concentrate
  - Activity: Kills by contact
  - Kills mosquitoes and flies
  - Broad spectrum control including no seeums
  - Stable in solution
  - Will not harm most common ornamental plants
  - Effective against mosquitoes that may transmit Zika, West Nile and Chikungunya Virus

- **SHOCKWAVE®**
  - Form: Concentrate
  - Activity: Flushing, kills by contact, IGR effect
  - For commercial and industrial use
  - Indoor use as UV, space, area or contact spray
  - Works to break the lifestyle of listed insects
- **Microencapsulated pyrethrum featuring SmartCap™ technology**
- **Contact kill with residual activity for sensitive environments and customers**
- **Contains 3% pyrethrin and 15% PBO**

### Package Size / Configuration

- **64 ounce unit**
- **275 gallon**
