

Promotion runs: March 21, 2020 to April 10, 2020

## Better Together Promotion

### Save on Alpine<sup>®</sup> WSG when you save on Termidor<sup>®</sup>

March 21-April 10, 2020

When it comes to controlling ants, no two products work better together than Alpine WSG insecticide and Termidor SC termiticide/insecticide. If you like Termidor SC termiticide/insecticide for its non-repellent and transfer effect benefits, you'll love Alpine WSG insecticide. A non-pyrethroid, non-repellent solution, Alpine WSG insecticide can be used inside, outside — even off-structure. Featuring horizontal transfer of the active ingredient, Alpine WSG insecticide lets you go almost anywhere ants go.

Used together, Termidor termiticide/insecticide and Alpine WSG insecticide provide ant control inside and out. The result? PMPs can control ant problems the first time they're called, helping them to establish longstanding customer relationships.

For PMPs who have yet to try Alpine WSG insecticide, the Better Together Promotion featuring the new Alpine WSG insecticide 10g sachets represents a great opportunity.

#### How it works

1

Get **\$10** instant savings on **Termidor** termiticide/insecticide 20 oz

Then, get

**\$2**
